

Patients **before** Profits\$

The New Northern Beaches Hospital

If you live on the Northern Beaches and are concerned that the new Northern Beaches Hospital will be built and run by a private corporation – Healthscope ...

Then join nurses and midwives when they doorknock Manly residents to inform them about the privatisation of their new hospital and the Americanisation of our health system.

This new hospital is replacing Manly Hospital, and will see the downgrading of acute services at Mona Vale Hospital. This means two public hospitals are being replaced by one private hospital.

Saturday 7 & Saturday 21 March 2015
1.30 – 4 pm

Meet us at St Mary's Catholic Church Hall, 50 Whistler St, Manly
Bring sun block, a hat and water.

Briefing will be given before we head off to inform the Manly community.

We look forward you joining us
