## NOTICE TO MEMBERS

RE- CEO Letter Issued 13<sup>th</sup> of June 2017

The Union finds it disturbing that the new CEO Mr Faurby believes that the announcement to privatise Region 6 is "exciting". We can assure him that 1200 Bus Operators, Mechanics and Office Staff don't find this announcement as exciting as he does.

The new CEO still plans on implementing Peter Rowleys restructure plan with further and continuous improvements that must be achieved even though plans to privatise region 6 are taking place.

The CEO also apparently understands this has been "unsettling for many of you" and just to demonstrate how understanding he is towards his employees he then decides to remove your Industry Allowance.

We have a Government that openly states that they haven't ruled out further privatisation of the other regions:

Premier Berejiklian on the 21<sup>st</sup> of May- Sunday Herald

Minister Constance on the 31<sup>st</sup> of May- Australian Associated Press

Minister Constance on the 13<sup>th</sup> of June- ABC Radio

So while it may be "exciting" times for him, unfortunately all members are facing a bleak outlook in regards to our future job security with STA.

### Can we trust the new CEO?
