

MAY DAY CHANGE THE RULES RALLY

On 1 May millions of workers around the world take to the streets.

They do this

- to celebrate the achievements of workers, like improved wages, conditions and safety and
- workplace rights that have been hard fought for and won - like penalty rates, annual leave, superannuation and redundancy benefits. As well as having the right to show support of their Union
- to resist the erosion of these rights.

Today in Australia we have growing cost of living and declining wage growth. This has been addressed head on by strong Unions, where workers fight together to win superior conditions.

Unions want to continue to improve wages and conditions. Many industries are making billions of dollars in profit and not paying any tax.

YOU DESERVE YOUR SHARE. COMPANY PROFITS MADE ARE THE DIRECT RESULT OF YOUR WORK. COMPANY PROFITS ARE THE DIRECT RESULT OF ALL THAT OVERTIME. IT'S THE DIRECT RESULT OF THE SATURDAYS AND SUNDAYS YOU ARE WORKING INSTEAD OF BEING WITH YOUR FAMILIES OR HAVING A BREAK. THIS SACRIFICE SHOULD MEAN BETTER WAGES, CONDITIONS AND SAFETY FOR YOU. YOU DESERVE NO LESS.

MARCH WITH US ON 1 MAY 2019 TO SEND A MESSAGE TO GOVERNMENTS AND COMPANIES THAT YOU DESERVE YOUR SHARE OF THE PROFITS.

It is also important to send a message to all politicians, in particular to the Labor Party, in the lead up to the upcoming Federal Election that is only a few weeks away, that the Rules need to be changed so that:

- The ABCC is abolished. The ABCC's sole purpose is to inhibit Unions and you from being able to bargain more effectively. It also aims to make it harder for Unions to take up the issues that are important to you and your families. We have withstood the ABCC but the millions of dollars of wasted tax payers money that is used to fund it would be much better spent on looking after your families, not trying to destroy your conditions.
- The Building Code 2016 is abolished. The Codes main purpose is to prevent the Union from bargaining for enterprise agreements that protect your security of employment and stronger workplace protections.
- Labour hire is regulated so that it isn't used to push down wages and relegate workers to insecure casual jobs indefinitely.
- Stamp out the illegal use of ABN's so that workers are not forced to accept crap conditions that deprive them of decent hourly rates, penalty rates, annual leave, sick leave and redundancy.
- Regulate the use of temporary visas that exploit workers, deprive local people of local jobs and push wages and condition down. The focus should be permanent, well paid jobs for local people.

MAY DAY CHANGE THE RULES RALLY

On 1 May millions of workers around the world take to the streets.

SCOTT MORRISON CHOSE BHP PROFITS OVER AUSTRALIAN WORKERS

Scott Morrison's government signed off on allowing temporary licences for foreign ships to replace Australian ships, putting 70 Australian seafarers out of work.

SCOTT MORRISON VOTED 8 TIMES TO CUT PENALTY RATES

Scott Morrison voted to cut the penalty rates of hospitality and retail workers on Sundays and public holidays. At a time when wages are stagnant, he decided to cut wages for almost half a million Australian workers.
